Operational Policies and Procedures

6. Operational Policies & Procedures – The Context

The Article 11 Trust (the Charity) is a small charity holding just a small amount of non-sensitive data on a small number of people.

The Trustees understand and accept their responsibility under the EU General Data Protection Regulation (GDPR) to hold all personal data securely and use it only for legitimate purposes with the knowledge and approval of the data subjects.

By the following operational policies and procedures the Trustees undertake to uphold the principles and requirements of the GDPR in a manner which is proportionate to the nature of the personal data being held by the Charity. The policies are based on the Trustees' assessment, in good faith, of the potential impacts on both the Charity and its data subjects of the personal data held by the Charity being stolen, abused, corrupted or lost.

7. Personnel

7.1 Data Protection Officer

In the considered opinion of the Trustees the scope and nature of the personal data held by the Charity is not sufficient to warrant the appointment of a Data Protection Officer.

Accordingly, no Data Protection Officer is appointed.

7.2 Data Controller

The Board of Trustees is the Data Controller for the Charity.

7.3 Data Processor

The Charity may from time to time in the course of its affairs act as data processor for third parties.

The Charity will not knowingly outsource its data processing to any third party (eg: Google G-Suite, Microsoft OneDrive) except as provided for in the section "Third Party Access to Data".

7.4 Access to Data

Personal data shall only be accessed by those who have a legitimate interest to do so for the good running of the charity or the pursuit of its charitable objectives.

8. Collecting & Processing Personal Data

The Charity collects a variety of personal data commensurate with the variety of purposes for which the data are required in the pursuit of its charitable objects.

All personal data will be collected, held and processed in accordance with the relevant Data Privacy Notice provided to data subjects as part of the process of collecting the data.

A Data Privacy Notice will be provided, or otherwise made accessible, to all persons on whom the Charity collects, holds and processes data covered by the GDPR. The Data Privacy Notice provided to data subjects will detail the nature of the data being collected, the purpose(s) for which the data are being collected and the subjects rights in relation to the Charity's use of the data and other relevant information in compliance with the prevailing GDPR requirements.

9. Information Technology

9.1 Data Protection by Design/Default

Inasmuch as:

- a) none of the Charity's volunteer Trustees are data protection professionals;
- b) it would be a disproportionate use of charitable funds to employ a data protection professional, given the scale and nature of the personal data held by the Charity;

the Trustees will seek appropriate professional advice commensurate with its data protection requirement whenever:

- c) they are planning to make significant changes to the ways in which they process personal data;
- d) there is any national publicity about new risks (eg: cyber attacks)

which might adversely compromise the Charity's legitimate processing of personal data covered by the GDPR.

Personal data will never be transmitted electronically (eg: by e-mail) unless securely encrypted.

9.2 **Data Processing Equipment**

The Trustees shall determine on what equipment personal data shall be stored. In general personal data should be stored in secure 'cloud' locations and not on personal electronic devices. Where personal data must be stored on personal electronic devices, it should be temporary and the data must be protected by secure passwords.

9.3 **Data Processing Location**

Data Processors shall only process the Charity's personal data in a secure location, and not in any public place, eg: locations where the data could be overlooked by others.

Computers/laptops in use for data processing will not be left unattended at any time.

9.4 **Obsolete or Dysfunctional Equipment (Disposal of Removable Storage Media)**

Equipment used to hold personal data, whether permanently or as interim working copies, which come to the end of their useful working life, or become dysfunctional, shall be disposed of in a manner which ensures that any residual personal data held on the equipment cannot be recovered by unauthorised persons.

Inasmuch as:

- a) this will be a relatively infrequent occurrence;
 - b) techniques for data recovery and destruction are constantly evolving;
 - c) none of the Trustees have relevant up-to-date expert knowledge of data cleansing;
- equipment which becomes obsolete or dysfunctional shall not be disposed immediately. Instead it will be stored securely while up-to-date expert advice on the most appropriate methods for its data cleansing and disposal can be sought and implemented.

10. **Data Subjects**

10.1 **The Rights of Data Subjects**

In compliance with the GDPR the Charity will give data subjects the following rights. These rights will be made clear in the relevant Data Privacy Notice provided to data subjects:

- e) the right to be informed;
- f) the right of access;
- g) the right to rectification;
- h) the right of erasure {LO} Also referred to as "The right to be forgotten"
- i) the right to restrict processing;
- j) the right to data portability; {LO} {LI}
- k) the right to object; {SC} {Co} {LO}
- l) the right not to be subjected to automated decision making, including profiling.

The above rights are not available to data subjects when the legal basis on which the Charity is holding & processing their data are:

{SC} Subject Consent;

{Co} Contractual obligation

{LO} Legal Obligation

{LI} Legitimate Interest

10.2 **Rights of Access, Rectification and Erasure**

Data subjects will be clearly informed of their right to access their personal data and to request that any errors or omissions be corrected expeditely.

Such access shall be given and the correction of errors or omissions shall be made free of charge provided that such requests are reasonable and not trivial or vexatious.

There is no prescribed format for making such requests provided that:

- a) the request is made in writing, signed & dated by the data subject (or their legal representative);
- b) the data claimed to be in error or missing are clearly and unambiguously identified;
- c) the corrected or added data are clear and declared by the subject to be complete and accurate.

It will be explained to subjects who make a request to access their data and/or to have errors or omissions corrected, or that their data be erased, that, while their requests will be actioned as soon as is practical there may be delays where the appropriate volunteers or staff to deal with the request do not work on every normal weekday.

Where a data subject requests that their data be rectified or erased the Data Controller and Data Processor will ensure that the rectifications or erasure will be applied to all copies of the subject's personal data including those copies which are in the hands of a Third Party for authorised data processing.

10.3 **Right of Portability**

The Charity will only provide copies of personal data to the subject (or the subject's legal representative) on written request.

The Charity reserves the right to decline requests for portable copies of the subject's personal data when such requests are unreasonable (ie: excessively frequent) or vexatious;

10.4 **Data Retention Policy**

Personal data shall not be retained for longer than:

- a) In the case of data held by subject consent:
the period for which the subject consented to the Charity holding their data;
- b) in the case of data held by legitimate interest of the charity:
the period for which that legitimate interest applies. For example: in the case of data subjects who held a role, such as a volunteer, with the Charity the retention period is that for which the Charity reasonably has a legitimate interest in being able to identify that individual's role in the event of any retrospective query about it;
- c) in the case of data held by legal obligation:
the period for which the Charity is legally obliged to retain those data.

The Charity shall regularly – not less than every 6 months – review the personal data which it holds and remove any data where retention is no longer justified. Such removal shall be made as soon as is reasonably practical, and in any case no longer than 20 working days (of the relevant Data Processor) after retention of the data was identified as no longer justified.

The Union or the Member State law shall meet an objective of public interest and be proportionate to the legitimate aim pursued.

4. Where the processing for a purpose other than that for which the personal data have been collected is not based on the data subject's consent or on a Union or Member State law which constitutes a necessary and proportionate measure in a democratic society to safeguard the objectives referred to in [Article 23\(1\)](#), the controller shall, in order to ascertain whether processing for another purpose is compatible with the purpose for which the personal data are initially collected, take into account, inter alia:

- a) any link between the purposes for which the personal data have been collected and the purposes of the intended further processing;
- b) the context in which the personal data have been collected, in particular regarding the relationship between data subjects and the controller;
- c) the nature of the personal data, in particular whether special categories of personal data are processed, pursuant to [Article 9](#), or whether personal data related to criminal convictions and offences are processed, pursuant to [Article 10](#);
- d) the possible consequences of the intended further processing for data subjects;
- e) the existence of appropriate safeguards, which may include encryption or pseudonymisation.

Article 12: Transparent information, communication and modalities for the exercise of the rights of the data subject

1. The controller shall take appropriate measures to provide any information referred to in Articles 13 and 14 and any communication under Articles 15 to 22 and 34 relating to processing to the data subject in a concise, transparent, intelligible and easily accessible form, using clear and plain language, in particular for any information addressed specifically to a child. The information shall be provided in writing, or by other means, including, where appropriate, by electronic means. When requested by the data subject, the information may be provided orally, provided that the identity of the data subject is proven by other means.
2. The controller shall facilitate the exercise of data subject rights under Articles 15 to 22. In the cases referred to in [Article 11\(2\)](#), the controller shall not refuse to act on the request of the data subject for exercising his or her rights under Articles 15 to 22, unless the controller demonstrates that it is not in a position to identify the data subject.

3. The controller shall provide information on action taken on a request under Articles 15 to 22 to the data subject without undue delay and in any event within one month of receipt of the request. That period may be extended by two further months where necessary, taking into account the complexity and number of the requests. The controller shall inform the data subject of any such extension within one month of receipt of the request, together with the reasons for the delay. Where the data subject makes the request by electronic form means, the information shall be provided by electronic means where possible, unless otherwise requested by the data subject.
4. If the controller does not take action on the request of the data subject, the controller shall inform the data subject without delay and at the latest within one month of receipt of the request of the reasons for not taking action and on the possibility of lodging a complaint with a supervisory authority and seeking a judicial remedy.
5. Information provided under Articles 13 and 14 and any communication and any actions taken under Articles 15 to 22 and 34 shall be provided free of charge. Where requests from a data subject are manifestly unfounded or excessive, in particular because of their repetitive character, the controller may either:
 - a) charge a reasonable fee taking into account the administrative costs of providing the information or communication or taking the action requested; or
 - b) refuse to act on the request.
6. The controller shall bear the burden of demonstrating the manifestly unfounded or excessive character of the request.
7. Without prejudice to Article 11, where the controller has reasonable doubts concerning the identity of the natural person making the request referred to in Articles 15 to 21, the controller may request the provision of additional information necessary to confirm the identity of the data subject.
8. The information to be provided to data subjects pursuant to Articles 13 and 14 may be provided in combination with standardised icons in order to give in an easily visible, intelligible and clearly legible manner a meaningful overview of the intended processing. Where the icons are presented electronically they shall be machine-readable.
9. The Commission shall be empowered to adopt delegated acts in accordance with Article 92 for the purpose of determining the information to be presented by the icons and the procedures for providing standardised icons.

Article 13: Information to be provided where personal data are collected from the data subject

1. Where personal data relating to a data subject are collected from the data subject, the controller shall, at the time when personal data are obtained, provide the data subject with all of the following information:
 - a) the identity and the contact details of the controller and, where applicable, of the controller's representative;
 - b) the contact details of the data protection officer, where applicable;
 - c) the purposes of the processing for which the personal data are intended as well as the legal basis for the processing;
 - d) where the processing is based on point (f) of Article 6(1), the legitimate interests pursued by the controller or by a third party;
 - e) the recipients or categories of recipients of the personal data, if any;
 - f) where applicable, the fact that the controller intends to transfer personal data to a third country or international organisation and the existence or absence of an adequacy

decision by the Commission, or in the case of transfers referred to in Article 46 or 47, or the second subparagraph of Article 49(1), reference to the appropriate or suitable safeguards and the means by which to obtain a copy of them or where they have been made available.

2. In addition to the information referred to in paragraph 1, the controller shall, at the time when personal data are obtained, provide the data subject with the following further information necessary to ensure fair and transparent processing:
 - a) the period for which the personal data will be stored, or if that is not possible, the criteria used to determine that period;
 - b) the existence of the right to request from the controller access to and rectification or erasure of personal data or restriction of processing concerning the data subject or to object to processing as well as the right to data portability;
 - c) where the processing is based on point (a) of Article 6(1) or point (a) of Article 9(2), the existence of the right to withdraw consent at any time, without affecting the lawfulness of processing based on consent before its withdrawal;
 - d) the right to lodge a complaint with a supervisory authority;
 - e) whether the provision of personal data is a statutory or contractual requirement, or a requirement necessary to enter into a contract, as well as whether the data subject is obliged to provide the personal data and of the possible consequences of failure to provide such data;
 - f) the existence of automated decision-making, including profiling, referred to in Article 22(1) and (4) and, at least in those cases, meaningful information about the logic involved, as well as the significance and the envisaged consequences of such processing for the data subject.
3. Where the controller intends to further process the personal data for a purpose other than that for which the personal data were collected, the controller shall provide the data subject prior to that further processing with information on that other purpose and with any relevant further information as referred to in paragraph 2.
4. Paragraphs 1, 2 and 3 shall not apply where and insofar as the data subject already has the information.

Article 24: Responsibility of the Controller

1. Taking into account the nature, scope, context and purposes of processing as well as the risks of varying likelihood and severity for the rights and freedoms of natural persons, the controller shall implement appropriate technical and organisational measures to ensure and to be able to demonstrate that processing is performed in accordance with this Regulation. Those measures shall be reviewed and updated where necessary.
2. Where proportionate in relation to processing activities, the measures referred to in paragraph 1 shall include the implementation of appropriate data protection policies by the controller.
3. Adherence to approved codes of conduct as referred to in Article 40 or approved certification mechanisms as referred to in Article 42 may be used as an element by which to demonstrate compliance with the obligations of the controller.

Article 25: Data protection by design and by default

1. Taking into account the state of the art, the cost of implementation and the nature, scope, context and purposes of processing as well as the risks of varying likelihood and severity for rights and freedoms of natural persons posed by the processing, the controller shall, both at the time of the determination of the means for processing and at the time of the processing

itself, implement appropriate technical and organisational measures, such as pseudonymisation, which are designed to implement data-protection principles, such as data minimisation, in an effective manner and to integrate the necessary safeguards into the processing in order to meet the requirements of this Regulation and protect the rights of data subjects.

2. The controller shall implement appropriate technical and organisational measures for ensuring that, by default, only personal data which are necessary for each specific purpose of the processing are processed. That obligation applies to the amount of personal data collected, the extent of their processing, the period of their storage and their accessibility. In particular, such measures shall ensure that by default personal data are not made accessible without the individual's intervention to an indefinite number of natural persons.
3. An approved certification mechanism pursuant to Article 42 may be used as an element to demonstrate compliance with the requirements set out in paragraphs 1 and 2 of this Article.
